

**Recurring Payments:**

Recurring Payments are ongoing, or future dated payments that can be set up by customers in branch, or within Internet Banking or the Banking App. These payments include an internal transfer between SWC accounts, external transfer to another financial institution, OSKO transfer or BPAY transfer.

South West Credit reserves the right for any Recurring Payments that fall due on a public holiday to process the payments on the preceding business day. If you do not wish the payment to be processed early, you may log into Internet Banking or the Banking App and change the payment date.
